FIELD DAY FRENZY MOUNTS AS BOTH CLASSES PREPARE FOR IMPENDING STRUGGLE

1933 PRESIDENT ELUDES FRESHMEN AFTER SKIRMISH

Banquets Tendered Members of
Competing Teams This
Evening

ODDS FAVOR SOPHOMORES

Both classes, at the peak of fighting frenzy over the incidents of the last twenty-four hours, are impatiently awaiting the zero hour of Field Day, which will come this afternoon at about 4:30 o'clock when one of the fiercest glove fights ever witnessed is expected to culminate the events of the day and formally decide the supremacy of the victorious class.

Having as its nucleus a series of abductions and attempted kidnappings, a spirit of competition has swept both classes, until today observers are confident that it will be one of the hottest-contested Field Days on record.

Visitors Expected

Hundreds of visitors, including many prominent Alumni of Technology, will be

Pres. Compton Plays Popular Squash Game

Three Major Tournaments Will Dominate Opening of Squash Season

President Karl T. Compton was an enthusiastic participant in a set of squash early this week. He was only one of more than 150 men who have already come out for this increasingly popular sport, despite the fact that the squash season has not yet started.

On Monday the official opening of the squash season will take place when the bumping tournaments will be started. The lists which were formerly posted opposite the cashier's office in Building 10 have been transferred to squash court No. 5. These lists are still open for anyone who desires to enter the tournaments. Any person may challenge any other person who is above him on the lists; and if he defeats him, he automatically changes places with him. An added incentive to the players is the fact that the highest ranking players both in the varsity and freshman tournaments will become members of the respective squash teams.

Graduate Tournament

Additional popularity of the sport is shown by the fact that the Faculty graduates have also organized a bumping tournament. This was brought about when they were told that they were not eligible for the regular tournaments.

All freshmen who have substituted squash for Physical Training are advised to be present on Monday. Signing up for a sport does not mean that P. T. may be entirely disregarded. Freshmen must play at least three times each week in order to obtain credit for P. T. The first seven freshmen on the list at the close of the tournament will receive instruction from Coach Jack Summers, and will be members of the freshman team. Incidentally, Technology competes in the "C" and "D" classes as defined by the Massachusetts Squash Racquet Association. The freshman team will play in the "D" division and members of the team will receive class numerals.

Uphold Action of Tech Show Board In Dissolving

Institute Committee Elects New Representative of the Senior Class

Approving the action of the Tech Show Board taken ten days ago, to discontinue the annual Tech Show because of lack of student interest, the Institute Committee yesterday afternoon completed the dissolution of the organization. A new representative for the Senior Class was approved, the appointment of a member of the Walker Committee was recognized, and several other pieces of business were transacted.

Edwin C. Beck was appointed a representative of the Senior Class on the Institute Committee to fill the position left vacant by the failure of Thomas E. Sears, Jr. to return to the Institute. James P. Mills '33 was appointed to the Walker Memorial Committee.

Tech Show Action

With very little discussion from the floor, and after the reading of a letter from Professor William C. Green, the motion to approve the action of the Tech Show Executive Board was passed unanimously. After the balloting, William D. Corder '32, general manager of the organization, explained that an effort will be made to dispose of the properties and equipment of the Show, and that the proceeds will be applied to the deficit of the Show.

The letter from Professor Green, which suggested that a show of a new and more restricted type be given in Walker Memorial, will be given in Monday's issue.

Present Budget Estimate

Carroll L. Wilson '32, chairman of the Budget Committee, presented the estimated budget for the Institute Committee

(Continued on Page Three)

Field Day Events
1.30 p.m. First pull, Tug-o-War.
1.50 p.m. First half, football game.
2.35 p.m. Relay race.
2.50 p.m. Second pull, Tug-o-War.
3.00 p.m. Second half, football
game.
3.45 p.m. Third pull, Tug-o-War
(if necessary).
4.05 p.m. Glove fight.

SOPHOMORE RELAY TEAM SLATED TO SET NEW RECORD

Coach Hedlund Promises Fine
Exhibition from Both
Class Teams

RAIN SLOWS UP TRACK

Between the halves of the football game this afternoon, the thirty-first relay race of Field Day will be run, a contest of twelve men to a team, each running 220 yards. Both of the classes participating this year have been working hard, and are prepared to run the race of their lives. If favorable conditions prevail, the Sophomore team stands an even chance of breaking the previous record of 4 minutes and 48 seconds, made in 1918, by the Sophomore Class of that year. In the race last year, the freshman team, now Sophomores, ran within three seconds of the record, and the conditions were unparalleled for slowing up the men, mud two inches deep covering the track, over which there was a layer of water which washed away a great deal of the underpinning.

Team All Veterans

All the men from the last year's team are back on the track again, and backed by a year of continuous practice, each man has taken seconds off his time as represented in the trials last year. The Sophomore team is composed of men such as Dick Bell, Walt Wrigley, Lou Holladay, L. Allen, Rees Schwarz, Ted Rimbach, E. Lockhart, and "Philip" Sousa. Every one of these men has been a point scorer all season long, and can be counted upon to give the freshmen the race that they will never forget.

Among the freshmen there are not so many fine sprinters, but the spirit is better than in any other of the first-year men's

CREWS EVEN TO BRIDGE; '35 TAKES SHORT LEAD; LAGS IN HOME STRETCH

Cheering Lustily, Freshmen Throng To Mass Meeting

Warned Not to Throw Missiles
In Grand Stands or To
Create Riots

Shouting, yelling freshmen crowded Room 10-250 yesterday afternoon to make a glorious success of the last rally before Field Day. The freshman class is a dark horse as far as the outcome of this eventful day is concerned; the rally has shown that it is a dark horse with an excellent chance of winning, not a mere upstart.

Robert G. MacKay '33, president of the Junior Class, opened the rally by introducing E. J. Collins '35, section leader of Section 6. Collins spoke on the successful kidnapping of Barry, the vice-president of the Sophomore Class. A collection was taken that Barry and his jailers might have the wherewithal to exist during his duration which, it is hoped, will last till after Field Day. Unfortunately Barry managed to elude his guileless captors and is now at large, having escaped from the jail on the Cape.

If favorable conditions prevail, the Sophomore team stands an even chance of breaking the previous record of 4 minutes and 48 seconds, made in 1918, by the Sophomore Class of that year. In the race last year, the freshman team, now Sophomores, ran within three seconds of the record, and the conditions were unparalleled for slowing up the men, mud two inches deep covering the track, over which there was a layer of water which washed away a great deal of the underpinning.

More Men Needed for Tug-of-War

More men were urged to go out for the tug-of-war team that the team which will engage the Sophomores today may have some competition in practice. Track Coach Oscar Hedlund reported that he was greatly pleased by the attendance at the rally. He also said that the freshman relay team was getting along very well, but that the Sophomore team was getting along a little better. Hard work before the rally would determine the probable winner.

Frank Lovering '35, captain of the freshman football team, also reported on the favorable condition of his team.

Garbage Prohibited
All the speakers of the day warned
(Continued on Page Three)

FIRST YEAR MEN SHOW UNEXPECTED STRENGTH IN RACE

Sophomore Crew Rows Course
In 5:50. Lapstreaks
Make Slow Time

MANY VIEW CONTEST

Field Day activities began this morning with a victory for the Sophomores in the Field Day crew race when the second-year men crossed the finish line in front of Walker Memorial 1½ lengths ahead of their opponents. The winning eight rowed the one-mile course in 5 minutes, 50 seconds.

Today's race was rowed in lapstreaks, which are slightly heavier than the regulation craft, instead of in racing shells as in previous years. The seatings are as follows: freshmen: Dubbs, bow; Johnstone, 2; Rucker, 3; Graham, 4; Daley, 5; Seelman, 6; Lavenas, 7; Smith, stroke; Clark, cox. Sophomores: Jordan, bow; Lidoff, 2; Moonaw, 3; Joel, 4; Cantor, 5; Murphy, 6; Priggen, 7; Woodbury, stroke; Woodhall, cox.

Dr. A. W. Rowe started the race and Coach Haines was the other official. This event gives the Sophomores three points towards winning the honors of the day.

SCABBARD AND BLADE WILL SPONSOR DANCE

All Students from Institute are Invited to Attend

Announcement was made today of the coming Military Ball to be given by Scabbard and Blade on Tuesday evening, November 10, in the Main Hall of the Walker Memorial. The committee wishes to make it known that the affair is not confined to members of the Advanced R.O.T.C., but that all students are invited to attend.

Jimmy Goodman and his orchestra, direct from the Plantation Club in New York City, will provide the music for the event. The Ball will begin at 9 o'clock and continue until 3 o'clock, with time out for refreshments and special pledging exercises at midnight. Tickets are available from all Scabbard and Blade members, and will be on sale in the Main Lobby shortly.

Juniors in the medical school of Tulane University are required to swallow rubber stomach tubes in the study of their course. The professor said that in swallowing the tube the student would be able to appreciate the position of his future patient.

New Bleachers Erected Opposite Track House

Spectators will be afforded the protection of bleachers which have been erected in anticipation of this afternoon's activities. These are on the side of Tech Field opposite the Track House, and it is hoped that innocent spectators may witness the progress of events without the hazard of unexpected participation.

THEY'RE OFF

THE day of days for the members of the freshman and Sophomore classes has arrived with all its noise, disorder, and inevitable odor, but not without the apprehensiveness of the School authorities. Major Smith has posted his guard, the contractors on the new buildings have been warned to be ready for any occasion, and everything is prepared to meet the extreme emergency. Yet is there any reason to believe that today's Field Day will be anything more than a passive struggle involving only a portion of underclassmen?

We cited in Monday's issue that the freshmen, especially, were showing no great interest in this fracas, and were pleased to note that by Wednesday at 5 o'clock their enthusiasm had been considerably increased. In the meantime, there have been kidnappings, some noise in the corridors, but nothing more. Is Field Day going dead?

We are not crying for the good old days when a cow was planted on the dormitory roof, but in spite of the repeated warnings of the conservatives, we would prefer some action to this apparent ennui. Today there is presented an opportunity to prove to those interested in the undergraduate affairs of the Institute that the lower classes to have "a bit of the old spirit, after all!" It is not necessary to carry the proceedings off grounds, and we especially warn against the consequences of that. A good clean fight is possible here within Technology's boundaries, with plenty of room, and plenty of mud. Make Field Day take on new life, freshmen and Sophomores, may the battle be fierce, and may the best man win!

A POSSIBILITY?

ADVICE on matters in which one has only a sentimental interest is often made practically valueless through the idealistic approach to a material problem. Professor William C. Green of the English Department has in the past been associated with Tech Show, and has, we are given to understand, contributed his share in making a few of its former successes. Now that the Show has suffered its demise, Professor Green rises again to the occasion and suggests a means of erasing from the books the deficit which the Show has incurred. We have no special comment to make upon the suggestion, nor upon the motive which prompted it. The letter read yesterday before the Institute Committee will be published in Monday's issue.

By action of the Advisory and Managing Boards of Tech Show, approved by the Institute Committee, the Show is no longer an activity recognized by the undergraduates of Technology. A proposal to revive that organization, no matter what be the purpose, would seem a trifle far-fetched. It has apparently been proven that there is no longer enough student interest in such an affair, nor sufficient talent to produce it were there this interest.

As for paying off the deficit, the idea immediately suggests itself: is there not a great risk that in attempting to produce a show to pay the debts of the former show a greater debt might be incurred? Might not the Institute have to assume this additional burden, along with the present one? Is not this a rather expensive experiment? Professor Green has taken a standpoint which, if we are to assume it be the opinion of the majority of Tech Show devotees, is both interesting and enlightening, but we fear it means no more than that. We would revise his question to ask: "Are there not better suggestions for removing this deficit?"

The Lounger, ever a critic of things architectural, has been gazing upon the spotless Indiana limestone that is crawling its tortuous path up the side of the new building. It stands out like a Harvard back at a sewing circle, in contrast to the grimy, stained structure which preceded it. Such a situation calls for drastic remedial action.

Now our stone urns perched in their Grecian dignity on the roof of the new dorms serve no purpose either decorative or utilitarian. Now the Lounger suggests that these big tubs be removed from their present loft and transferred to the top of the new building. Then they will be lined with straw and serve as a delightful home for stray pigeons. This will serve to age the white walls with surprising facility, provide a home for unemployed pigeons, and give the urns a motive for their existence.

For good examples of sheer unadulterated mismanagement consider the jam the electrical Seniors find themselves in. It seems that the men who flunk a strange thing called M-77 the last term of their Junior year are closely related to fish. This is because the M-77 is needed to take another queer course which masquerades under the mystical name of 8-541. And here is the rub, they cannot take M-77 this term because it conflicts with some other electrical subject and neither department would change either hour. So that is the jam. The men cannot take M-77 because of a this year's conflict; they can-

not take 8-541 because it depends on M-77; and loss of 8-541 means no soap on 8-542. Well this means that a little bull-headedness on the departments' part will pull a group of luckless men back here for another year. Well the Lounger supposes there are dirtier ways of raising cash.

SOPHOMORE GRID TEAM TUNED FOR FIELD DAY MELEE

Strong Team Picked by Coach Vassalotti from Well-Balanced Squad

CAPTAIN NOT ELECTED

Eleven Sophomores go on the football field this afternoon better prepared to play than they have ever been while playing at the Institute. After four weeks of unceasing effort on the part of Coach Vassalotti, two games with outside teams for practice, and a stiff training program, the men are nerved to the limit for the game which carries the largest weight in deciding the Field Day winner.

Star among the backs will be Sieminski, who has acted as captain in the preliminary games, playing quarter. His younger brother is playing halfback for the freshman team, and the two of them will furnish plenty of thrills, both of them being very fast, and almost impossible to tackle because of their size. During the Field Day game last year, played in the rain, the elder brother was the sensation of the game, never losing his feet once in the slime.

Princeton Transfer in Backfield

A new man, MacIvor, transferring from Princeton, is making the backs work for their positions. He will probably start as fullback in the Friday game. Egan, a fast-running man, will be a likely starter in the backfield, with Charlie Hill as halfbacks. There is another backfield which will probably alternate with the above-named men throughout the game.

From one end of the line to the other, the men are experienced players who average about one hundred and sixty pounds apiece. At left end is Hoyt Steele, fast, red-headed, last year's captain, alongside of whom "Red" Schneck plays at tackle. Schneck is hard to stop and equally hard to pass, with his weight and speed, making him a bad man to oppose both on the offense and defence.

High School Stars on Line

Patch will be the starting left guard, balancing Milliken on the other side of the line. Both of these men played on high school teams in the vicinity of Boston before coming to the Institute, and each of them played on the freshman team last year, distinguishing themselves as cagey, rugged linemen.

Two men are slated for center, Williams and Geil, with the honors divided about evenly as far as starting goes.

Class Teams to Report For Technique Pictures

To facilitate the taking of pictures of the class teams for Technique, all men competing in sports this afternoon are requested to report at the Track House at 1 o'clock, dressed ready to take part in the sports. The equipment must be obtained from your respective team manager before this time.

FIELD DAY FRENZY SWEEPS TWO CLASSES

(Continued from Page One) present at the annual event, and will occupy stands erected for this purpose on the far side of the Field. Strict orders have been issued against the use of eggs and fruit in the stands, but it is believed both classes have made arrangements to carry on their aerial warfare across the field.

Field Day officially began with the crew race this morning, and both sides are taking advantage of this brief lull in hostilities to attend their classes and better organize themselves. Beginning at noon today till well past 3 o'clock, the real battle will be on. As far as could be ascertained from the relative strength of the teams the Sophomores have a very slight edge over their rivals.

Kidnapping Fails

The plucky fighting spirit of Henry B. Humphries '34, president of the Sophomore Class, spelled disaster for a group of ambitious freshmen who sought to kidnap the second-year leader in an attempt to secure at least a moral victory for their class on Field Day. The kidnapping assumed the proportions of an assault as Humphries was dragged across the sidewalk, beaten, and his clothing ripped and torn beyond repair. When announced at the Sophomore mass meeting yesterday afternoon, the affair raised a howl of disapproval from the second-year men and a collection was taken to help defray the cost of Humphreys' damaged clothes.

A battle between the two classes ensued on the parking space in front of the Coop Field last evening at 5:45 o'clock when a group of freshmen sought to take Humphries and the Sophomore vice-president, Peter Barry, as they were leaving the Sophomore mass meeting. Both Humphries and Barry, who had the previous day escaped from another group who had captured him on Wednesday, managed to escape by running to the Central Square subway station and there boarding a train as the pursuing freshmen reached the platform.

Both Sophomore leaders are now in hid-

OFFICE OF THE PRESIDENT

NOTICE TO STUDENTS

It has been customary at the Institute since 1901 for the Sophomore and freshman classes to participate in a series of athletic contests known as Field Day. For this purpose the last Friday afternoon in October is set aside by vote of the Faculty.

In some years there have been unauthorized parades outside the Institute grounds the night preceding the athletic events, and impromptu demonstrations following them. As a result the Institute has sometimes been placed in an unfavorable position before the general public.

Conduct of future Field Days has, therefore, been under consideration by the student government, working in conjunction with representatives from the Faculty and Alumni Association. Their recommendation for the conduct of future Field Days is as follows;

"That in order to protect the good name of the undergraduate government there shall be no parades or demonstrations of any character off the Institute grounds, and that the President of the Institute be requested to support this decision by giving due notice that offenders render themselves liable to expulsion."

The Institute authorities have every confidence in the student government and believe that the decision is a wise one. Accordingly, due notice is hereby given of the serious consequences of being involved in any demonstration off the Institute grounds.

*Karl T. Compton
President.*

FRESHMEN THRONG TO MASS MEETING

Egg-Throwing is Deprecated At Large Gathering

(Continued from Page One) against the use of garbage or chemicals in the grandstands or the building, and against rioting off the Institute grounds. If there is any expense incurred by unruly conduct or by having to pay for cleaning up, it will come out of the class treasury. That means that if the treasury does have to incur any such expense, there will be no money with which to celebrate Senior Week.

ing under a heavy guard and will be brought forth at the start of hostilities this afternoon. Large numbers of freshmen are gradually finding their way back to Cambridge after a hectic night spent in the suburbs after carload after carload left the School's vicinity under the escort of Sophomores last night.

Following the contests of the afternoon, members of all teams, their coaches and their managers will be guests at the annual Field Day banquet, held in North Hall of Walker Memorial at 6 o'clock. President Karl T. Compton and Professor George Owen will speak at the banquet and Dr. Allan W. Rowe will act as toastmaster. The Cabot medals will be awarded by Dean Lobdell to the six Sophomores who have shown the greatest physical improvement during the past year.

AGGRESSIVE SQUAD MEETS SOPHOMORES

Freshman Tug-of-War Team Shows Better Form

Practising yesterday afternoon at 5 o'clock for the last time before meeting the Sophomores, the freshman tug-of-war team showed unusual skill in pulling uniformly and in a straight line, although their efforts were somewhat hindered by the soggy condition of the field.

At an informal election held by the team on the field, Edward E. Helvith was chosen as counter. Capt. Lars Sjerdhol and John J. Mooring were elected at an earlier date.

Coach Pierre S. DuPont 3d, '33, will send 24 men with the combined weight of more than two tons into the battle with the Sophomores, after the team meets at the wooden track in back of the track house. There the starting team will be chosen and its picture taken, after which the team will retire until 1:30 o'clock. At that time, if everything runs off in schedule, the team will take issue with the Sophomores.

DISSOLUTION OF TECH SHOW IS SANCTIONED

Institute Committee Elects Senior Representative

(Continued from Page One) and its constituent bodies. The budget for the year of 1931-32 is estimated at a total of \$9640, which amounts to 36 cents per man at the Institute, counting on an enrollment of 3000 students.

The undergraduate organizations of McGill University are trying to formulate plans by which "economy dances" may be held, in order that the students may enjoy these pleasures in spite of the depression.

CALENDAR

Friday, October 30

7.30 a.m. — Field Day crew race on the Charles.
 1.30 p.m. — Field Day begins, Tech Field.
 6.00 p.m. — Field Day banquet in North Hall.
 9.00 p.m. — Dormitory dance in Main Hall.

Sunday, November 1

1.00 p.m. — Japanese Students Club dinner meeting in Faculty Dining Room.

Monday, November 2

5.00 p.m. — Banjo Club rehearsal in East Lounge.
 5.00 p.m. — Hockey mass meeting in Room 1-190.

Tuesday, November 3

5.00 p.m. — Pi Delta Epsilon meeting in West Lounge.
 6.00 p.m. — Instrumental Clubs rehearsal in East Lounge.

NOTICES

HOCKEY MASS MEETING

All candidates for hockey, and all veterans, are urged to attend a mass meeting Monday at 5 o'clock, in Room 1-190. Candidates for freshman manager are especially wanted.

PHYSICAL SOCIETY MEETING

The Physical Society will meet in Room 4-231 at 5 o'clock on Tuesday. Professor Nottingham will speak on "The Principles of Vacuum Tube Electrometers."

T.C.A. HANDBOOKS

Any student who has not yet received a copy of the T.C.A. Handbook may do so by calling at the T.C.A. office.

ELECTIONS

THE TECH, Volume LI, takes pleasure in announcing the election of F. W. Kressman '33, to the position of Sports Editor, and that of F. W. Wehmuller '33 to the Editorial Board.

VARSITY AND FRESHMAN SOCCER

All members of the varsity and the freshman soccer teams are to meet at the track house at 12 o'clock tomorrow. There will be busses there to take the varsity to Worcester, and the freshmen to Exeter.

Infirmary List

Beaton, Neil.
 Cahill, Thomas '34.
 Daleda, Joseph '34.
 Dastas, Luis.
 Fraser, Miss Lottie.
 Speir, Frank M. '32.

THE LOUNGER

(Continued from Page Two)

It looks like a bad night for the Electrical Department; hark to this tale of injustice. There is a course in Thermionics that proved to be rather popular among the wire-scrapers. Hence a howling mob of them tried to take the darn thing. The word was passed down that men must be accepted on their cumulative rating. All of which means that a brownbagging Soph who has not been exposed to the storms of a long session at the Institute have a higher rating than the war-worn Seniors who know more electricity by the way. Well, just a lousy deal that is all; just a lousy deal.

Vegetables, it seems, may be classed as necessary and unnecessary; an article in last Wednesday's TECH enjoined Field Day combatants from exchanging eggs and unnecessary vegetables. When, asks the Lounger, does a vegetable become unnecessary? Does this classification apply only to cucumbers of an uncertain age, or is it presumed that all vegetables are unnecessary in the neighborhood of Field Day? Also, are fish heads and bags of oil included in the injunction?

Dr. Flanders Talks
On Possibilities of
Economic ControlMechanical Engineer Addresses
Initial Meeting of
Liberal Club

Dr. Ralph E. Flanders, vice-president of the Institute of Mechanical Engineers, spoke before the first meeting of the M.I.T. Liberal Club members and guests Thursday afternoon on the subject of "Limitations and Possibilities of Economic Control." It must have been very difficult to present the facts on such a complicated subject in an intelligible manner, but the fact that the lecture was understood was evidenced by the copious discussion which followed it.

Emphasizes Engineer's Position

The engineer's position in relation to the present economic conditions was emphasized by Dr. Flanders. "I would say, dogmatically, that the engineer has not caused this particular depression," he asserted. Contrary to the idea had by most people, Dr. Flanders claimed that our financial condition is not due solely to a business depression, but to a combination of causes, which he enumerated as "post-war deflation superimposed on a typical business depression superimposed on an agricultural crisis. Also, we must not forget that the element of human panic adds to these conditions greatly."

All Workers Should Have Gardens

Henry Ford's assertion that all workingmen should grow truck in their backyards was endorsed by the speaker. He claimed this would keep business depressions from becoming such serious emergencies as this one has proved to be.

SOPHOMORE RELAY LOOKS FOR RECORD

Many of Last Year's Freshman Stars Will Run

(Continued from Page One) sports. There is always a chance for the team that stays in the race though, for in such an event as this some Sophomore might drop the baton in passing, might fall, or meet with some other accident which could give quickly the necessary lead to the freshmen.

Freshmen showing up best in the time trials include Sharpe, Greenlaw, Horton, Keefe and Fox. These men are real runners, and in the last few weeks have improved their respective times, skill and experience considerably. The qualifying times in the trials have not been exceptionally fast, but each practice has shown in the improvement of the men on the yearling team, so the members are looking forward to a close and stiff run, whatever the Sophomores produce.

Last year, before the race, Coach Hedlund said that the Sophomores would have to undergo a complete reversal of form if they were to beat the team then running as freshmen. The Sophomores counted on their experience, and practice in such a race as was run, but the yearlings proved to be much too fast, and finished almost a half lap ahead of their elders.

Tommy Cahill Roots for His Class from Sick Bed

Six hundred Sophomores will be out rooting and fighting for their class today. Probably none of them has his whole spirit and heart into the affair more than Thomas E. Cahill '34 of Philadelphia, who will hear the cheers of battle in his room in the Homberg Infirmary. For fourteen weeks he has been away from Technology because of an illness. Yesterday he came back to be here for the Big Day.

The whole class is sorry that he cannot be with them on the field, but they expect to keep the freshmen so busy that the sounds of the conflict will resound in the little room up in the third floor of the Infirmary. Listen for them, Tommy. The whole class is behind you to win your battle as they hope to win Field Day.

Freshman Soccer Team Will Play Exeter Tomorrow

Exeter Academy Soccer Team Is Slight Favorite In Tomorrow's Game

With only three more games on the schedule, the freshman soccer team travels to Exeter tomorrow to play the prep school boys on their own field. Exeter usually has a good team, and may be slightly favored to win. Quincy High beat them last week 5-0. As Quincy beat the freshmen in their first game of the season by a score of only 7-0, it may be seen that tomorrow's battle should be a close one.

Jack Ballard, newly elected captain of the team, and Lowry, inside right, both played at Exeter last year. These two lads have been playing fine soccer right along, but tomorrow should see them at their best. Crann, who didn't get into the game with Dean until the second half, played a fine game at halfback and should be a starter tomorrow. "Fuzzy" Forsberg's absence was very noticeable last week, but he will be back at his fullback position tomorrow, and Van Pattensteiger, hockey goalie at Exeter last year, will guard the uprights for the freshmen.

Last week's game with Dean was well played by the freshmen, but they didn't have an effective scoring punch. Time and again they carried the ball down the field into their opponents' territory, but on at least six different occasions either the

center, or the inside left missed opportunities to score when they muffed passes from the wings. With the added incentive of beating their ex-teammates, Ballard and Lowry should supply that needed punch, and Van Pattensteiger should prove very effective in the goal.

Members of the freshman soccer team are to meet at the track house at 12 o'clock tomorrow.

No wonder men smoke PIPES!

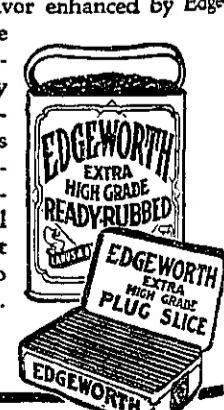

EVERY PIPE SMOKER has the satisfaction of knowing he has one masculine right that the women won't take away from him. They do leave our pipes alone.

And though the girls may not know it, they're leaving us one of the finest smokes a man can have. There's something calm and soothing about a pipe and good tobacco. It leads to clear-headed thinking. Perhaps that's why the leaders—the real men of the world—are pipe smokers.

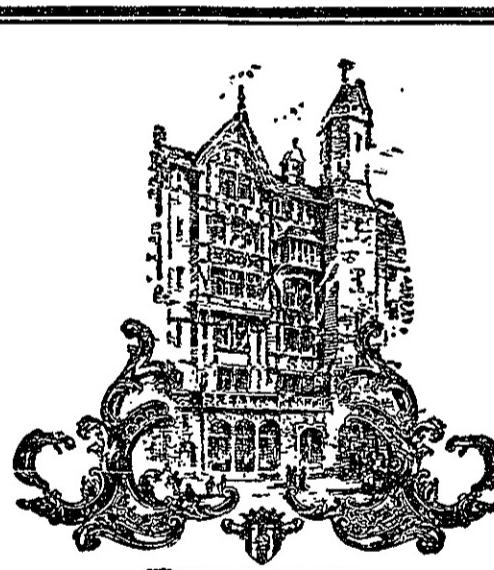

College men like a pipe—packed with cool, slow-burning Edgeworth, the favorite pipe tobacco in 42 out of 54 colleges. It's cut especially for pipes, to give a cooler, drier smoke. You can buy Edgeworth wherever good tobacco is sold. Or for a special sample packet, write to Larus & Bro. Co., 105 S. 22d St., Richmond, Va.

EDGEWORTH SMOKING TOBACCO

Edgeworth is a blend of fine old burleys with its natural savor enhanced by Edgeworth's distinctive and exclusive eleventh process. Buy Edgeworth anywhere in two forms—Edgeworth Ready-Rubbed and Edgeworth Plug Slice. All sizes, 15¢ pocket package to \$1.50 pound humidor tin.
